

Children's Oral Health Workshop

Thursday, February 11, 2010

When: Thursday, February 11, 2010, 8:00am–11:30am, Mammoth Lakes Library, 400 Sierra Park Rd, Mammoth

What: The training consists of instruction and clinical training:

- How tooth decay develops
- Fluoridation (topical vs. systemic)
- Oral hygiene and diet
- Hands-on clinical training where participants will learn clinical, in-mouth skills of oral health screening, caries risk assessment, treatment need assessment, infection control, and topical fluoride varnish application.

Presenter: Nancy Reifel, DDS, MPH, of the University of California, Los Angeles, School of Dentistry, Division of Public Health and Community Dentistry.

Who: This course is open to all. Typical participants include: community outreach workers; staff who provide center-based and home visitation services; nurses and clinical support staff; and others who work with young children.

Register: To register, call 760/924-7626 or email kpeterston@monocoe.k12.ca.us.

Pregnancy/Prenatal Care and Oral Health

This training covers:

- 1) The importance of good oral health to a healthy pregnancy.
- 2) Oral health risk assessments and targeted counseling during pre-natal visits.
- 3) Mother/caretaker interviews and anticipatory guidance.
- 4) Population-specific oral health outreach tools, including written guidance for prenatal women (self-care & infant care).
- 5) Oral hygiene, fluoride, and nutrition practices that promote oral health

When: **Thursday, February 11, 12:15 – 1:15 pm;** Mammoth Hospital, Conference Rm. C, 85 Sierra Park Rd.
Lunch provided for those who pre-register!

Presenter: Nancy Reifel, DDS, MPH, of the University of California, Los Angeles, School of Dentistry, Division of Public Health and Community Dentistry.
