Oodles of Art

A Make 'n Take Play Day

#### DESCRIPTION:

Explore and learn how to develop children's sensory awareness and expand their imaginations. Whether you're "artistic" or "artistically challenged," learn how you can provide a stimulating art environment that will spark children's creative energy and joy for art.

A variety of art activities and materials will be shared and demonstrated. Conferencees will learn how to provide the environment and creative climate for children to touch, hold, shape and experience many different materials and media in their own way. We'll look at ways to set up the ideal art center. Let's have fun, get inspired and bring out the creativity within yourself and our children!
