Practice writing your first name. In Kindergarten, we learn that only the first letter of a name is capitalized. It is not considered "correct" if a capital letter is used in the middle of a name! A good example: Susan . A bad example: SusaN . Check the parent handbook for letter formation.

Handwriting practice lines consisting of four rows. Each row has a solid top line, a dashed middle line, and a solid bottom line.

Activity Pyramid

Self-Image and Personal Development

As kindergartners use their bodies to perform varied movements, they develop their own body image. Because self-image can be enhanced through movement experiences, children at this stage need many opportunities to experience personal feelings of success and achievement through movement.

Make the activities FUN and use a lot of praise and encouragement!
