

# Mono Alpine Childcare Quality System

## WHAT IS A RATING?

Ratings are based on a set of California state standards for high-quality early learning. As of 2024, new ratings are only being funded by the State for California State Preschool Programs. Prior to 2024, all Early Learning Sites could choose to receive a rating which remained effective for up to five years; those ratings are included below. All participants in the Childcare Quality System are committed to ongoing quality improvement efforts to provide high-quality early learning and prepare children for school entry.

## RATING STANDARDS INCLUDE:

- Interactions between teachers and children as defined by the CLASS tool.

## RATING SYSTEM - BETWEEN ONE AND FIVE POINTS

- 1** COMMITTED TO QUALITY – Participating in quality improvement efforts
- 2** RAISING QUALITY – Meeting some quality standards
- 3** ACHIEVING QUALITY – Meeting multiple quality standards
- 4** EXCEEDING QUALITY – Meeting quality standards in all areas
- 5** HIGHEST QUALITY – Exceeding quality standards in all areas

# Mono Alpine Childcare Quality System
